med bord og stol**
video phone
with table and chair

**ramme
med bord og stol**
frame
with table and chair

oplevelsesberetninger

experiences

Vi ønsker at du, med dine egne ord og på din egen måde, beretter om dine oplevelser ved involveringen i installationerne.

We would like you to tell us about your experiences with the involvement in the installations. You can describe this in your own words and in your own way.

Dette er et sæt vejledende spørgsmål til mulige indgange til en individuel beretning om oplevelse og refleksion af hver opstilling og relationer mellem dem.

This is a set of questions meant as a guide and starting point for an individual account of experience and reflection upon each setup and the relations between them.

Det står dig frit at vælge hvad og hvordan du beretter.

You are free to choose what you want to describe and how.

Hele arrangementet med alle dets del-installationer er at betragte som praksis-tænkning. Situationer for hel-kropslig tænkning som instantieres ved din involvering.

The arrangement as a whole with all its installation fragments is to be seen as thinking in practice. Situations for whole bodily thinking that is instantiated with your involvement.

Vi er derfor interesserede i hvad vores situationering af dig igangsætter hos dig.

Therefore we are interested in what our situating of you starts in you.

1 Forsøg at stave dig igennem de forskellige oplevelsesstadier

1 Try to describe the succession of stages of experience

2 Forklar hvordan opstillingerne beforder involvering

2 Explain how performative involvement is promoted

3 Beskriv karakteren af de mellemmenneskelige relationer som opstår

3 Describe the character of the emergent relationships

4 Hvordan opleves din egen og andres tilstedeværelse

4 How do you experience the presence of yourself and the others
